PRESS RELEASE Team-NB – Code of Conduct January 14 th , 2015	

During the October 14th General Assembly of Team-NB association, an important discussion took place regarding the approbation of a new version of the Code of Conduct. Many comments were received showing the interest of the members in this important document. Taking that into consideration, it was decided to split the work.

In a first step the reasonably straightforward comments were approved during the General Assembly meeting and are published in a revised **Code of Conduct version 3.3**. available on our web site ([link](#)).

It has been agreed to a 6 months transition period for the implementation of the new version.

Secondly, a working group was set up with the aim to come up with a further draft to be presented at the April General Assembly meeting for adoption. The working group will meet early February in Cologne with representatives of 8 members' volunteers. Main focus will be further detailing on qualification towards technical and process skills, and on unannounced visit details.
